Veterinary Dermatology

ESVD PRACTICAL LASER WORKSHOP 17-18 November 2022

Anicura Kleintierspecialisten
Augsburg, Germany

Participants will understand:

- How do lasers interact with tissue
- Which laser is best for which type of tissue
- Which safety measures are needed
- Pros and Cons compared to traditional surgery, therapy
- Pros and Cons of different laser types
- How to market a laser in their practice

Participants will apply these understandings:

- In case discussions with videomaterial
- In practical sessions on non-living tissues
- Using different laser types and performing different surgical procedures
- In practical sessions with therapy lasers
